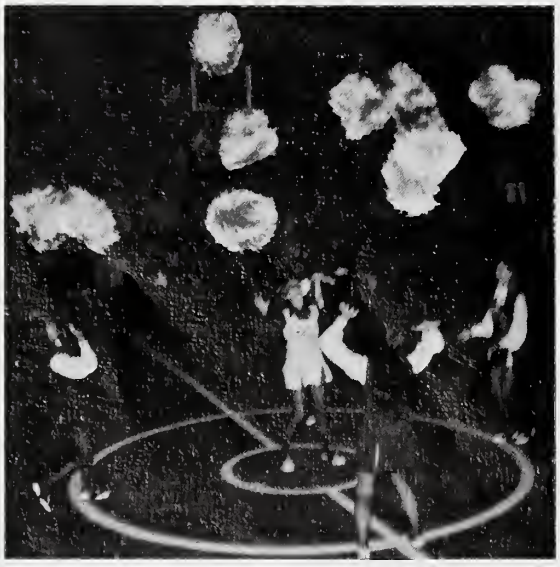
JOHNSTON COUN
TECHNICAL
INSTITUTE

Retrospect 1972, Volume Two

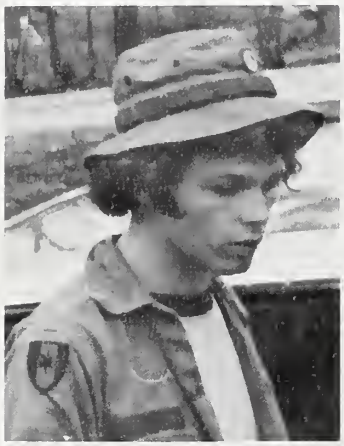
Johnston Technical Institute

Smithfield, North Carolina

Students enjoy a number of extracurricular activities which add excitement and more meaning to their learning experience. Opportunity exists for all to participate in clubs, sports, special projects, dances, and every-day socializing with fellow students. The Student Government Association promotes student activities and stimulates many aspects of student life beyond the classroom.



Johnston Technical Institute offers learning activities ranging from cultural enrichment courses to highly technical and vocational programs. Courses in sewing, ceramics, flower arranging, and many others are of general interest to the public. Our Adult High School Education Program enables adults to complete their high school education. Our vocational programs include Automotive Mechanics, Industrial Electronics Servicing, Practical Nurse Education, and Pre-Nursing Education; our technical programs include Accounting, Business Administration, Agriculture Science and Mechanization, Secretarial Science, and General Office Technology; and our General Education-College Transfer Option Program is offered through a contractual agreement between Campbell College and Johnston Technical Institute.



To the People of Johnston County

To the people of Johnston County, we dedicate this yearbook. You have provided us with more than an opportunity — more than a school — more than a hope — more than a dream. You have enabled us to become effective citizens.

Your efforts to provide training for us beyond high school is deeply appreciated. As young adults, we are keenly aware of the effort that the citizens of Johnston County have exerted to bring about Johnston Technical Institute. Those of us who are students here will forever know that we had this opportunity because you made it possible.

Therefore, we pledge to you that we will do our part in making our society a better place. We will remember that everything we accomplish will be because of you.

To the people of Johnston County, we dedicate this yearbook. Thank you very much.

Johnston Technical

Buildings

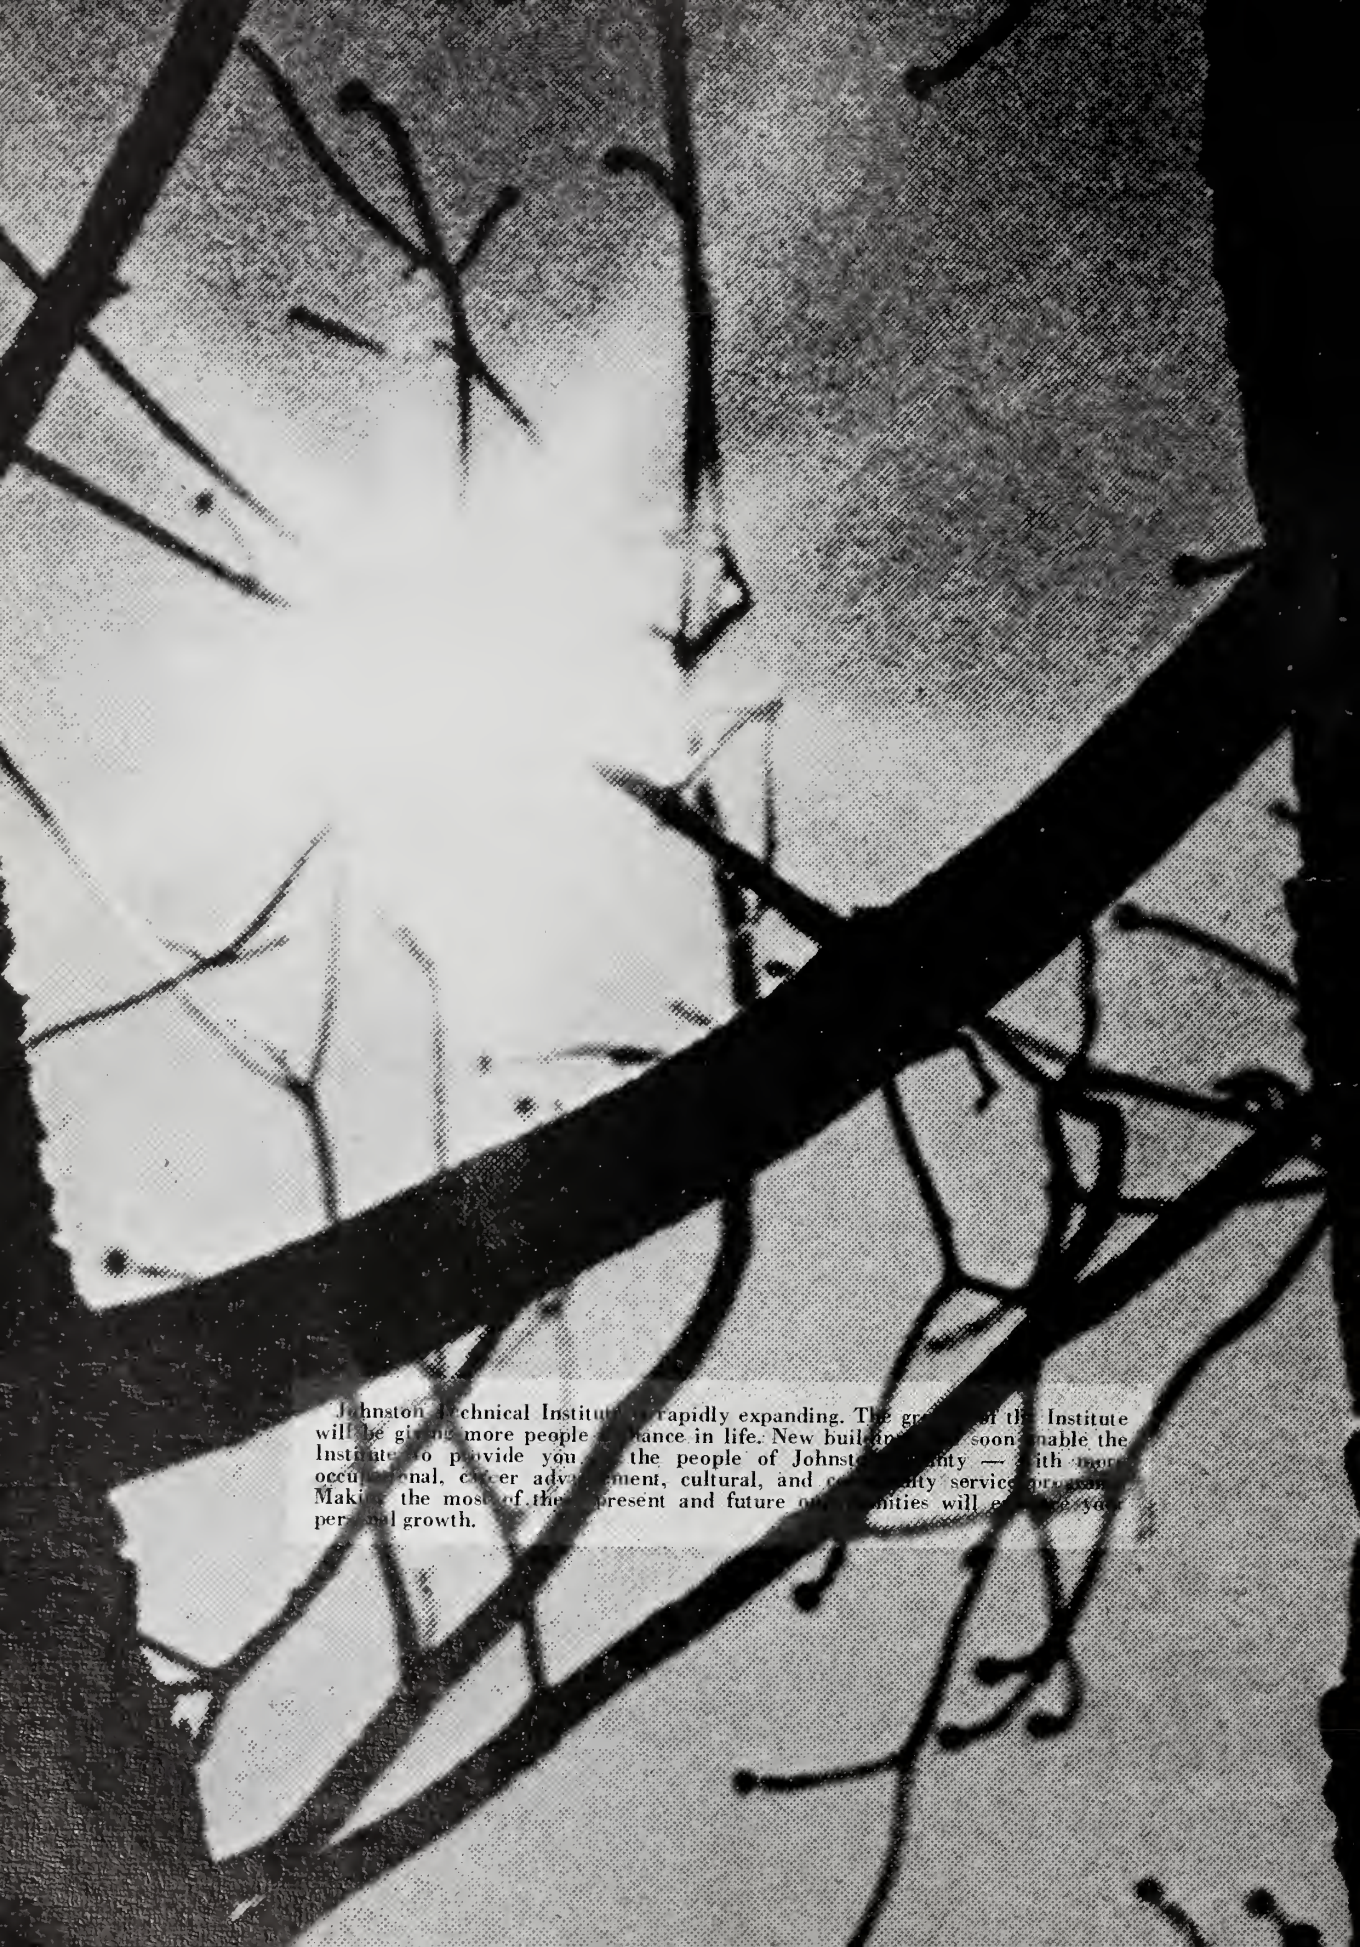
Activities

Institute is . . .

People

Programs

In its second year of operation, Johnston Technical Institute organized a basketball team. The Blue Devils, coached by James E. Barbour, gave the Institute its first winning season and its first trophy by placing third in the Eastern Carolina Community College Conference.



Johnston Technical Institute is rapidly expanding. The growth of the Institute will be giving more people a chance in life. New buildings will soon enable the Institute to provide you, and the people of Johnston County — with more occupational, career advancement, cultural, and community service programs. Making the most of the present and future opportunities will enhance your personal growth.

ACTIVITIES

This year at Johnston Technical Institute has been a wonderful experience to me. Our activities, instruction, accomplishments, school spirit, and new-found friendships will always be memorable to each of us. I sincerely hope that this edition of Retrospect will be an inspiration to you for many years. Please accept my gratitude for your fine cooperation in making this yearbook a success.
